

Annual Report

The annual report of GVMGC is always there before you, as a record of facts and figures earned throughout the session. It is a celebration; a celebration of academic triumphs, cultural brilliance and tireless dedication of a team governed by the two stalwarts president Dr. O.P. Pruthi and principal Dr. Manjula Spah.

The session 2024-25 defines the institution's vibrancy and reflects the strength of collective energy and intellectual zeal of the students and the faculty. If, at the helm of this remarkable journey is our visionary president Dr. O.P. Pruthi with his positive outlook and constant encouragement, the dynamic principal Dr. Manjula Spah steers the college towards greater academic distinction and intellectual enrichments.

Let us enjoy the panoramic view of the milestones achieved and initiatives undertaken during the session gone by.

English Department

The Department of English has always endeavoured to foster critical thinking, creativity, and academic excellence among students. In the academic year 2024–2025, the department remained committed to enriching the learning experience through a combination of curricular and co-curricular activities.

As a part of the curriculum for both undergraduate and postgraduate students, the department organized screenings of select English plays and adaptations. For postgraduate students, Parineeta and Frankenstein were screened to complement their study of adaptation and narrative techniques. Undergraduate students viewed William Shakespeare's *The Merchant of Venice*, *Before Breakfast* by Eugene O'Neill and *The Monkey's Paw* by W.W. Jacobs, enabling them to better understand themes of domestic realism and supernatural fiction. These screenings served as a platform for reflective discussions and critical analysis, connecting text with performance and aimed at enhancing the students' understanding of dramatic literature by providing them with visual interpretations of the texts studied in class.

In celebration of literary heritage, the department also conducted an Inter-college Quiz Competition on the life and works of William Shakespeare on April 11, 2025. The event witnessed enthusiastic participation from students across various courses. It not only tested their knowledge of the Bard but also rekindled their interest in classic literature. The department continues to strive toward creating a vibrant academic environment through such initiatives. We look forward to introducing more interactive learning practices and opportunities for holistic student development in the coming academic year.

DEANS

As Dean Arts faculty, I take immense pleasure and pride in our commitment to academic excellence, creativity and critical thinking. Throughout the session our faculty contributed to excel in both the academic rigour and co-curricular activities. On the creative front our students earned accolades in various district and state level Literary and cultural competitions. Our distinguished faculty members focus on holistic development of students by fostering an environment where they not only learn academically but thrive creatively, intellectually and socially.

Heartfelt gratitude to our respected principal, administrative staff and above all the dear most students for their commitment to achieve excellence. Hope to move forward with the spirit of collaboration, curiosity and creativity.

Science faculty at G.V.M. Girls College is always committed to motivate the students for nurturing curiosity, encouraging innovation and fostering a spirit of team work. In today's rapidly evolving world where science and technology shape the future of a nation, our sincere effort is to equip students not only with knowledge but also to inculcate scientific temperament to develop skills, creativity and diverse job opportunities. As Dean of Science faculty; with sincere co-operation of my colleagues we celebrated events like National Space Day, National Science Day and International day for women in science to commemorate milestone events in the field of science and eminent scientists for their contribution in this field. We also organized science quiz competitions sponsored by HSCSIT (Government of Haryana) and National level seminars in mathematics and physics department to inculcate research culture among students and update their knowledge about the latest developments in science and technology.
